How it works

Fill up a project proposal form and our team will reach out to you within a working day!

Share your ideas

We review your proposal and expected deadlines in detail and provide you with a fixed-price-breakdown for each module and a timeline for the project.

We sketch a design

If you're happy with the price. We sketch an estimate architecture of your project and exchange feedbacks

We develop

If the design meet your needs. We'll start the work right away, by building each module within the agreed deadlines

Deploy to production

Once we're on the way to deployment, we will present the project for you to review and provide feedback. If everything is good we deploy to production.

Working rates indicated are roughly estimated, and may vary depending on the project and complexity of the tasks.

STANDARD

€56/h

Development of microservices and integration of existing API services up-to selected endpoints

COMMERCE

€79/h

Development of complex store backends
Integration of online stores, delivery companies, retailers, distributors and payment processing platforms

ENTERPRISE

€89/h
